Delivered live over 4 weeks

In 4 x 60min Zoom sessions

What does the program cover?

Week 1: Spendsuasion® core philosophies – 60 minutes

Whether you're an experienced clinician or just starting out, this module introduces a new way to listen and engage with clients and patients. None of us are born persuaders, it's a learned skill. Week 1 introduces you to the Spendsuasion® principles so you can understand and then practice the small shifts required to improve your results and client conversations.

3 Spendsuasion® principles are covered:

1. Pre-suasion
 - You prepare clients physically for their treatment, but do you prepare them mentally?
 - The pre-suasion principle is a simple method that prepares your clients so they're more open to recommendations.
 - This technique alone, increases acceptance of your recommendation by 52% - right from the get-go.
2. Persuasion
 - Persuasion is the key to expanding your client's treatment choices.
 - Everyone's biggest challenge is how to move a client from what they 'want' to what they 'need'.
 - Client questions are discussed – that open your client to be more likely to share their inner thoughts.
3. Spendsuasion®
 - Most teams members have a challenge with closing or reaching agreement.
 - The methods discussed, remove any discomfort – making it a more comfortable stage of your consultation.
 - We introduce the method of defusing pressure if you receive a NO

Week 2: Upgrading your clients – 60 minutes

A deep dive into simple ways to change the language you use in your consultation. to produce a different outcome.

Key topics covered:

- Identifying buying signals (or intent) that communicates your client's wants and desires.
- Explore how to upgrade clients and introduce additional treatment options.
- Using segues to introduce new treatment categories to your clients.
- Identifying your communication style.
- Methods to accelerate your client's at-home results, by agreeing to purchase retail product.

Week 3: Reaching agreement – 60 minutes

The most common question is "How do I close a sale?" Many participants feel uncomfortable with this part of a consultation, so they avoid it – because they don't want to appear being pushy. This is where persuasion comes to the fore:

Key topics covered:

- The basics of a client offer.
- How to structure your questions.
- 4x proven industry-based methods of reaching agreement that are comfortable to deliver.
- How to defuse the situation if you experience a "No".
- A simple approach to rephrasing questions and suggesting alternative options

Week 4: The client comfort curve – 60 minutes

Brings the whole program together. Details the 9 phases your clients' experience during their clinic visit. Each phase has an important function that moves your client smoothly through the consultation, treatment protocol and post treatment stage.

Key topics covered:

- The different emotional phases every client experience's during a clinic visit.
- The high points of a clinic visit.
- When is the best time to recommend, and the main times to avoid it.
- The crucial phase that changes you results.
- How to do an effective handover to front-of-house (if required).

Course includes:

- Clear, simple methods and wording
- Take-home workbook
- 4x 60-minute interactive sessions
- 100% money back guarantee

Pricing starts from \$187.50 pp per week
